

## **Staff Air Quality Engineer/Specialist**

McGinley and Associates is seeking a full-time staff level air quality engineer/specialist to provide support to our air quality team based in Reno, NV. Primary responsibilities would include:

- Developing emissions inventories and preparing air permit applications for a variety of industrial and mining sources
- Performing air dispersion modeling and preparing associated technical reports
- Performing air quality impact assessments to support NEPA work

The ideal candidate will have at least two years of direct industry experience and a B.S. and/or M.S. in Environmental, Civil, Mechanical, or Civil Engineering, Meteorology, Atmospheric Science, or related field. Course work in air quality is desirable. Candidates with no industry experience but with substantial coursework in air quality may also be considered. Experience with air permitting in Nevada and in the mining industry is desirable.

McGinley and Associates is an employee owned company with low employee turnover. We offer very competitive wages and benefits, three weeks paid vacation per year, 401k retirement savings with employer contributions, and a performance bonus program.

Interested parties should send a cover letter and resume to [hr@mcgin.com](mailto:hr@mcgin.com).
