

Environmental Field Technician

McGinley & Associates is seeking an Environmental Field Technician for our Reno, Nevada operations. The successful candidate's responsibilities would include, but would not be limited to:

- Groundwater, surface water, and soil sampling
- Oversight of remedial and environmental drilling activities
- Coordination of subcontractors, laboratories and other vendors
- Various other tasks as assigned by Project Managers

Key Requirements:

- Willingness to occasionally perform physically demanding work
- Ability to travel for up to a week at a time
- Must have a driver's license and a clean driving record
- Ability to work independently, effectively, and efficiently
- Excellent interpersonal skills
- Highschool Diploma or equivalent, Associates Degree or higher in related field is a plus

Preferred Credentials:

- Minimum of 1 year of relevant experience
- 40 hour OSHA HAZWOPER training
- MSHA Surface Miner Training
- Ability to log soils in accordance with Unified Soil Classification System

The position can have an immediate start and may be part-time or full-time, depending on the candidates experience and abilities. Interested individuals should submit a one-page resume to hr@mcgin.com.
