

Senior Environmental Project Manager – Henderson, NV

McGinley & Associates is seeking a full-time senior staff level environmental Project Manager to support environmental projects related to soil, water, groundwater, or air and develop business relationships in Southern Nevada as well as the western region of the United States.

Primary responsibilities would include:

- Managing projects from proposal generation to site closure
- Proposal writing and/or cost estimation bid preparation for projects
- Interaction with current clients and potential clients
- Attendance at professional group meetings and conferences
- Overseeing field staff and subcontractors
- Working closely with local, state, or federal regulatory staff
- Managing projects associated with the Nevada State Petroleum Fund
- Preparing technical reports and/or reviewing technical reports prepared by others

Required qualifications include:

- Project Management experience: minimum of 6 years
- Bachelor of Science (BS) degree in engineering, geology, or related discipline (MS degree is desirable)
- Registration as a Nevada Certified Environmental Manager (CEM)
- Registration as a Professional Engineer (PE) or Professional Geologist (PG) is desirable
- Excellent oral and written communication skills
- An applicant with experience and existing business relationships local to Southern Nevada is preferred

McGinley and Associates is an employee owned company with low employee turnover. We offer very competitive wages and benefits, three weeks paid vacation per year, 401k retirement savings with employer contributions, and a performance bonus program. Interested parties should send a cover letter and resume to info@mcgin.com.
