

Job Announcement: Senior Air Quality Consultant

McGinley & Associates (McGinley) is currently seeking a full-time senior-level Air Quality Consultant with a minimum of 5 years of relevant experience to join our growing Air Quality Team. This position is based in Reno, Nevada, and is expected to begin as soon as possible.

McGinley is an employee-owned and operated environmental consulting firm headquartered in Reno, Nevada, with an additional office in Las Vegas, Nevada. McGinley delivers excellence to a diverse client base and provides employees with opportunities for career advancement.

Description

The Air Quality Consultant will support the existing project work load and continued growth of our Air Quality program. The selected candidate will be expected to manage projects and clients, delegate work to and manage staff level resources, and conduct business development activities.

Required Qualifications

- B.S. Degree in Environmental, Civil, or Mechanical Engineering, Meteorology, Atmospheric Sciences, or related field
- 5 or more years of air quality consulting experience
- Experience with Nevada air quality regulations and permitting
- Experience with air dispersion modeling software, most importantly AERMOD
- Experience using Microsoft Office products, including Word, Excel, Outlook
- Ability to work collaboratively with a team in a fast-paced and creative environment
- Highly-developed organizational skills
- Adaptive ability to be detail-oriented while maintaining focus on big picture project objectives in order to meet competing deadlines and demands
- Self-motivated with a strong work ethic and the ability to work independently and think critically
- Excellent oral, written, communication, presentation, strategic thinking, and “people” skills

Preferred Qualifications

- Business development skills and experience
- Experience providing air quality services to the mining industry
- Experience preparing Air Quality Impact Assessments for EA/EIS sections for NEPA is strongly preferred
- Experience with California and other western states air quality regulations and permitting
- Experience preparing greenhouse gas (GHG) impact analyses
- Indoor air quality experience is a plus

Physical and Travel Requirements

- Ability to travel regionally as needed and conduct fieldwork
- Ability to work out-of-town for varying amounts of times (over-night trips to multiple weeks in some limited cases)
- Wear personal protective equipment
- Perform duties outside of normal working hours, as necessary

Salary

Commensurate with experience. McGinley offers competitive benefits for retirement, medical insurance, and paid time off.

Non-Discrimination Policy

Qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, sexual orientation, gender identity, disability or protected veteran status.

Applying

Interested and qualified individuals should send a cover letter and resume to tdimpel@mcgin.com.
